COLOMAC DECOR

Professional Manufacturer of
Interior and Exterior Decoration Materials

About Colomac

Founded in 2016, Henan Colomac Decorative Materials Co., Ltd. (COLOMAC) is a system-based wall and floor solutions manufacturer serving overseas distributors and project partners.

Our main product systems include WPC wall panels, acoustic panels, flooring, and decorative wall and ceiling materials. We support product selection, coordinated finishes and OEM/ODM requirements.

Our three manufacturing bases in Zhengzhou, Henan; Linyi, Shandong; and Jinhua, Zhejiang cover approximately 280,000 square meters in total, with more than 80 production lines.

Quality and compliance documents, including ISO 9001 and relevant CE, SGS and FSC records, are available for review. Document applicability varies by product, manufacturer and scope; confirm the relevant evidence for each order.

Typical lead times are 7-20 days, depending on the product, quantity, customization and confirmed production schedule. Please confirm the agreed lead time before placing an order.

Samples of COLOMAC wall panels and flooring are free. The buyer pays shipping.
Sample charges for other products or accessories are confirmed case by case.

We help distributors and project partners coordinate materials for residential, hospitality and commercial applications. Specific dimensions, performance, installation requirements and project suitability must be confirmed for the selected product.
